window film.

BLACK PEARL® NC  
BY MADICO

Introducing Black Pearl® Nano-Ceramic, Madico's newest automotive film for the most comfortable drive possible.

Black Pearl NC's advanced ceramic technology offers significant heat reduction by rejecting up to 87% of infrared rays. It blocks more than 99% of UV rays, protecting passengers and interiors from overexposure. The multiple shades available help to minimize annoying glare.

### Black Pearl Nano-Ceramic Features:

-  Rich, black color
-  1.5 mil premium automotive film product
-  Lifetime warranty
-  Metal-free construction won't affect wireless or satellite connections
-  Available in a wide range of shades to accommodate any driver's preference
-  Helps keep shattered glass together in the event of an accident

“My drive has become so much more comfortable since having Black Pearl® Nano-Ceramic installed on my car . . . BP NC keeps my car's interior cooler even when it's parked for many hours in the sun.”

– Ian Graham  
West Palm Beach, Florida
